All-round grid hole for accessories. 4 Senso springs. Incl. rubberized anti-slip feet. Weight capacity up to 120kg. 6kg. For more details see www.pedalo.de		
Special notes Spring Board 500 (hereinafter also referred to as the device, product, or item) is a special training device that can be used for high-intensity training while standing, sitting, supporting or lying down. The springboard also appeals to children, who can do small jumps or balance exercises. The Spring Board depends on the user's coordination skills and is therefore intended for ages from approx. 3-4 years. Adult supervision is strongly recommended for use by children. Attention: The Spring Board is to be used with caution since it requires great skill to avoid falls or collisions causing injury to the user or third parties. In case of doubt first use the device only with assistance and/or appropriate protective equipment. Attention: In case of existing injuries in the foot and leg muscles, use only under the supervision of a therapist. Before each use, please check that the product is not damaged. Wear shoes during training. The maximum weight capacity is 120 kg when standing.			
Important information and warnings Not suitable for children under 3 years. Use only under adult supervision. Caution! Packaging is not part of the item and must be disposed of before use. Warning! Plastic bags and foils do not belong in the hands of babies and small children - risk of suffocation! Keep out of reach of babies and small children! Caution! Use the device exclusively for the purposes described in these instructions (and any other product information enclosed with the product). Warning! Only use the device on level ground with even and firm surfaces. On sensitive floors, place a mat underneath. After longer or frequent use, check that the screws are tight and retighten if necessary. Replace worn parts immediately with an original spare part. The product is made of different woods. Among others from natural birch, beech, and multiplex. Deviations in color, structure, grain, or small knots inclusions prove the genuineness of the material and therefore is no reduction in quality. Maintenance and care: Can be wiped with a damp cloth. Do not use solvent-based, acidic, or abrasive detergents. Protect item from damp and wet.			
Assembly No assembly required. The training device/product is delivered ready for use.			
Accessories (not included in delivery) Pedalo® Anti-Slip Mat 480x290 Item no. 628050-02 The anti-slip mat is used to place on the device for better stability and to protect the wooden surface, especially when using the training device in commercial areas. It can also be used as a carpet pad to protect the floor and improve the stability of the training device. Pedalo® Spring Element Item no. 14006000 An additional spring can be used to reduce the vibrating movements of the Spring Board. Or, for example, in the case of higher body weight, the compression of the existing springs can be reduced. Pedalo® Textile Resistance Band Item no. 13030001 (1 pair) The orange-colored resistance bands can be individually attached along the Spring Board and thus enable comprehensive exercises for strength, endurance, and mobility. Pedalo® Training Stick Item no. 144140 The soft-grip covered Training Stick is used for a variety of exercises. Strengthening in combination with resistance bands, stretching, balance and gymnastics.
